"60 Days to Camp" Progress Report

May 2009

Dear Parents & Campers

If you are getting ready for finals and Regents, 60 days feel like forever. But when planning for an unforgettable summer, 60 days are just around the corner. So here are some insights as to what is going on at camp and what you can expect for summer 2009.

### Brand New Website

We have made a complete overhaul on our [website](#) giving you the latest updates, instant trips and bus status, and contact links to find your way around the site. Plus you can now apply online and pay using your credit card. [Check it out](#) and send us your [feedback](#).

### New Construction

Both the girls and boys campus will be getting new NBA regulation size basketball units. Plus the tennic courts fence will continue all around preventing balls from rolling off. We also have a new pitching machine and a batting cage for campers to enjoy batting practice and 300ft

pop-ups. We also bought Ping Pong tables for campers to enjoy on their free time and rainy days.

### New Water Products

We are also attempting to purchase a big slide and paddle boards for the lake. In addition, basketball pool units will be in the pools to make the pool more exciting while cooling off. Instructional swim, lap swim will still be a part of the swimming experience.

...Details to follow

### Nets Get Together

All of the pictures from the Nets get together are [on line](#). Although the Nets lost to the CAVS, we all had a great time on the court, playing games, making announcements, getting autographs, and watching a great game with friends. More of these events to come!

The friends you make at Camp Mesorah are friends you keep for life. Our staff is dedicated to making sure every camper is safe, happy and confident, so keep your eyes on the summer and get ready for a real treat.

Sincerely,

Joseph, Shlomo, Ari, Rabbi Lipman and the entire Camp Mesorah Staff
