

Dear Parents,

As every year, the camp policy is that all campers arrive in camp lice and nit-free.

The camp expects that all children be checked for nits/lice before they come to camp. As in previous years the infirmary staff will check each child as they get off the bus. Any child found to have nits/lice will sleep in the infirmary until cleared. We have engaged the services of a lice treating company to treat any child who has lice or nits on arrival. The fee for this service will be passed along to the camper's parents.

We want to encourage you to check your child thoroughly before he or she leaves for camp to avoid any *embarrassment* or *inconvenience* to them. If however nits/lice are found we will leave it in the hands of these very well trained women to address the situation.

Thank you for your cooperation.

The Infirmary Staff
