

April 2010

Dear Parents,

It is extremely important that the infirmary staff have **COMPLETE** information on your child in the event that he/she requires medical attention while at camp. For this reason, you **MUST** fill out the **CAMP HEALTH FORM** in its entirety. Please answer **ALL** questions. If they do not apply to your child then indicate **N/A** in the appropriate blank. All medical information you provide is strictly confidential.

It is imperative that you have your child's immunizations up to date, and that you complete the information where indicated. Please provide the **DATE** of Tetanus Toxoid Immunization. Make certain that you **SIGN THE RELEASE** for medical care at the bottom of the form.

Please include two copies of your health insurance card and if you are on a drug plan, two copies of your drug card also. Without your drug card, the pharmacy will have to charge the full amount for any drugs that may be prescribed for your child.

The infirmary staff is available 24 hours a day to provide necessary medical care for your children. Should we determine that your child needs additional testing, such as x-rays, you will be notified in writing and/or by telephone. You will not receive a call for more routine care such as ear infections, strep throat, etc. If your child should require tetanus booster immunization, you will receive written notification with the date administered, which is to be forwarded to your family physician.

Thank you for your assistance. We wish you a very happy and healthy summer.
